Dear Matt

It was a great pleasure talking to you! You were most kind in offering your help by promising to call Dr. Martin Harwit, the director of the Garbor Facility of the Airspace Museum of the Smithsonian Institute. I will be free to visit the archives on Thursday morning, December 9th.

I am about to write him - I still have to get the exact address and fax number - announcing my visit. I would just like to look at the catalogue(s) of what they have on German (Nazi) experimentation. If I cannot figure out the address from here I will have to come back and ask you again for help.

Many thanks for all the time you spent helping me!

Please give my kindest regards to your wife,

sincerely

b-e
