	Number of Pgs (Including Cover) <u>1</u>
	Sigma Reference Number <u>01</u>
From: Steve Hanna	
Message: Matthew - Thank you for inviting me to the interesting meeting on 4/13. I have plotted and analyzed the net. data and arrived at the following conclusions:	
• The cold front went through at noon on April 1.	
• The mixing depth is 1000m on April 2.	
• Wind directions line up with the plume between 4am and 4pm on April 2.	
I will send you my plots and a detailed written analysis in a few days. It should be there when you return from Prussia.	
Steve
