Dear Dr. Meselson,

I was unable to find a reprint of the article on Q-fever that I mentioned to you, but I did find the reference: Dupuis, G, Petite, J, Peter O, and Vouilloz M. 1987. An important outbreak of human Q-fever in a Swiss Alpine valley. Int J Epidemiol 16: 282-287.

Also, while looking for that article I chanced across an old article by my former mentor, Charles Shepard, that does contain a map of sorts of cases that occurred in a Q-fever outbreak. I hope it will also be of interest to you.

Sincerely,

*Joe McDade*
