Subject:	"Science" Magazine : Sverdlovsk Incident
-----------------	---

Number of pages being transmitted including cover page:	One (1)
--	----------------

Recalling our lengthy conversation on this issue at the seminar on Alleged Use in Geneva a few years ago, and your lengthy presentation of your preliminary results, I would be most interested to have a look at your article which appeared in the latest edition of "Science" magazine on the Sverdlovsk incident. (I have tried to make contact with you by telephone, but your number has been continuously engaged for the past few hours.

Thank you.
