Dear Matt,

... I recently sent you some documents on our project for a World Health Research Centre, and I am now enclosing a revised version which may interest you. The documents have been sent to Irvin Tobin, in Wiesner's Office, Richard Gardner of the State Department, Dr Shannon of the NIH, and a few other scientists in the United States.

We are proceeding with informal discussions in several countries to determine the extent of their interest and the possibilities of support. Last week I spoke to high government officials in Denmark, Norway and Sweden and the reception was quite encouraging. Next week I expect to speak to similar officials in Belgium and Holland, and a bit later to Italian authorities. It is possible that I shall visit Dubrovnik during the Pugwash meeting to have discussions with the Russians who will be there. Thus, within the next few months we should have some idea of the possibilities for early implementation.

Any suggestions ?

I hope everything is going well with you.

With cordial regards,

Sincerely yours,

Martin Kaplan

P.S. I am sending sets to Alex Rich and Paul Doty. Could you stop off in Geneva after the Dubrovnik meeting?
