

October 24, 1963

Mr. Robert W. Kastenmeier
Member of Congress
House of Representatives
Washington, D. C.

Dear Mr. Kastenmeier:

Thank you for your letter of October 22. I look forward to hearing from your legislative assistant. With regard to my interest in obtaining background material on chemical and biological warfare. I would be glad to work with whoever in Massachusetts has some of your materials or to come down to Washington and speak with your legislative assistant, if that would not be too troublesome.

Thank you for your assistance.

Sincerely,

Matthew Meselson
