House of Representatives
Washington, D. C.

October 28, 1963

Mr. Matthew Meselson
Harvard University
Biological Laboratories
16 Divinity Avenue
Cambridge 38, Massachusetts

RE 4 3300
492

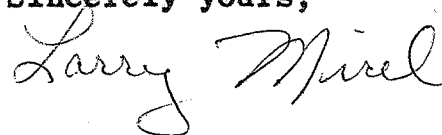

Dear Mr. Meselson:

I have just returned from my vacation and have had a chance to consider your recent letters on chemical and biological warfare. Earlier this year, we had a similar request for information from Dr. Victor W. Sidel, Vice Chairman, Physicians for Social Responsibility, 416 Marlborough Street, Boston 15, Massachusetts. We went through our extensive but unorganized file on the subject and sent Dr. Sidel everything that we either had duplicates of or were able to copy on our Thermofax machine. I suggest, therefore, that you get in touch with Dr. Sidel.

I am afraid that the rest of the material will have to remain here, but we would certainly be pleased to have you come and look at it. I will also be happy to spend as much time as I can with you, telling you what little I know about the subject.

Because of our continuing interest in this area, we would very much appreciate knowing of your activities.

Sincerely yours,

Lawrence Mirel
Legislative Assistant
