Subject: Requested Info

Matt, I Priority-mailed the info your requested this noon. Should you not get it by some critical time of your choosing, please let me know and I will fax a copy. Sorry for the delay. Dave

This is the note I sent with it.

Attached find a list of published and submitted manuscripts and abstracts from USAMRIID for FY96. As I mentioned during our phone conversation, I don't recall a classified publication resulting from our work during my time at the institute. Carol Linden, who has been at the RIID--and certainly associated with the front office--longer than I, had the same response. Feel free to share this during your visit. Note that they will have had access to much of this list via our UN submission.
