Dear Professor Meselson,

Now that you are back home I wonder whether we could ask you to write a short article for the January Newsletter on your impressions of the Dubrovnik Conference. We are having a similar article from Professor Vul, and one from you would make a nice balance. Please do not feel that the article cannot be critical of Pugwash or Pugwash activities. We really want it to start a discussion column on the present and future of Pugwash. Since we would like to get the January Newsletter organised before becoming too involved in the India Conference we would need the copy by mid-December. I know that this is very short notice, but I am sure you will understand that we always seem to be working under pressure!

With best wishes,

Yours sincerely,

Patrick J. Hinder
