Victoria 3101
Australia

Dear Shirley,

Thank you for the marvelous golden tree card. It stands proudly on a shelf in our laboratory.

Knowing of your interest in the use of law to control use of chemical and biological weapons activity, as set forth in the article you kindly sent some months ago, I enclose a draft treaty that Julian Robinson and I are seeking to promote. Some explanation of it is given in the prospectus, also enclosed.

We are hoping to obtain high level US support for the convention and have transmitted a copy to Australian officials in Canberra.

I trust you are receiving the *Bulletin* all in good order. We are amazed to have survived the production of 37 issues with the 38th about to be printed.

With very best wishes,

Sincerely,
