Dear Mr. Wiggins,

The enclosed study by the Senate Subcommittee on Disarmament contains on page 43 the statement of President Roosevelt on gas warfare. Also, there is a reference on page 21 to a similar but weaker statement by President Eisenhower. I recommend the Senate Subcommittee study as a reliable source of information on the subject of toxic warfare.

I very much enjoyed our discussion the other day and hope that something can be done along the lines we discussed.

Sincerely yours,

Matthew Meselson
