To professor Matthew Meselson  
Harvard University, Cambridge, Ma.

Dear mr Meselson,

With this letter I had to inform you that my dear husband passed away on the 6 of september '99. In february and march he was still in New York for the panel on Irak. The panel was formed for the question, what to do now, because Unscorn was come to a bad end.

In may he went to the doctor and after examinations in the hospital they find out he had cancer. After a heavy operation and two sessions of chemotherapy, his situation was still hopeless. I was glad we could take care of him at home, so he could die quietly in his own surroundings.

He was proud to be a member of the Advisory Board of your "Bulletin".

He has worked so hard for years in Geneva for the

The Treaty against Chemical Weapons and to <sup>establish</sup> ~~locate~~  
the OPCW in The Hague.

Would you be so kind to inform the other  
members of the Board, especially his friend  
Mrs Freeman and Mr Julian Perry Robinson.

Thank you in advance.

With kind regards

Marianna Coms de Regt
