To: Matthew S. Meselson <msm@wjh.harvard.edu>
Subject: your paper

Professor Meselson,

I received your paper and the report from the Detrick studies in good order. I do have a question. In the table you attach, you indicate a study by Pitt and Ivins that is a source of dose response data. I do not see a reference to this, and have not been able to locate a promising reference by a computer search. Would it be possible to obtain the full citation.

You might be interested that I testified on the issue of cleanup of buildings before the House Committee on Science yesterday. The written testimony is presented at:

<http://www.house.gov/science/full/nov08/haas.htm>

The committee also released a press release following the hearings.

<http://www.house.gov/science/press/107pr/107-120.htm>

Best wishes.

Chuck Haas
