Dear Dr. Meselson,

April 15th will be fine. Are there any other chapters you would like to see? I am attaching the revised version of the anthrax chapter I had Olaf re-write. After your concerns I had Phil Hanna do a critical review (attached also) of his first submission. I am definitely not a B. anthracis expert by any means so I differed to your criticisms. If you have concerns about this version, please let me know. Thanks very much for your participation and your comments.

Dear Dr. Lindler,

I am terribly remiss in answering your communications. Yes, I will write a short forward to go along with the one Dave Franz contributed quite a while ago. Would it be alright if I sent it to you on or about 15 April? Just now there are some other deadlines impending. Before that, however, I will send a few suggestions for small changes in the anthrax chapter, which you sent me some months ago. As this is a subject that I follow, I particularly care that this particular chapter be free of errors.

Sincerely,

Matthew Meselson
