Hi Matthew

Sorry this took so long. The attached file is a material transfer agreement that will allow me to send you a sample of the BG spores that we used in our anthrax letter studies. If you are in agreement with the terms of the MTA please let me know. I will have two copies signed here. I will fax a copy to you for signature and you can sign and fax it back to me. I will mail the two originals. Please sign them and return one of them back to me as the official copy for our records.

Please provide me with the appropriate shipping address to send the spores and I will send it by courier once I have all the papers in place.
