Subject: Question for Kit Green

> Regarding your questions on the following passage:
> "There was strong intelligence linking a mycotoxin research lab in the
> Soviet Union, with the application of yellow mist from helicopters in
> Afghanistan, wiht a laboratory in Cambodia, and with a yellow substance
> loaded into Pathet Lao planes in Laos." The citation for this is Telephone
> interview by author with Christopher Green, 25 NOvember 2002 and 23 July
> 2003.
