Dr. Meselson:

Thank you very much for inviting me to your office last week. I enjoyed seeing you again, and found our too-brief discussion both useful and informative. You present a perspective that I fear too few policy makers share.

Thanks for giving me copies of Anthrax and Biological Weapons.

Sadly, I fear I may need to consult them in an emergency one day. And thank you for your very kind comments about my book on the Curveball case.

I'm so pleased you and your wife enjoyed reading it.

Sincerely,

Bob Drogin
