Dear Mat,

As you are right,
Diabetes II may be currently of
the greatest interest - though
public health-wise the effect
is very minor if real.

Lady Borton is trying to
set up a study of North
vs South in Vietnam but
there are many confounding
factors. Note that diabetes is

now the "most important" - all
the other candidates have
fallen by the way.

To India for MCZ visit
Feb 6 - then a meeting I

hope with you

Yours
Jo

Scat. Love Mance

Dear Mat,

Glad to hear from and such
a long and nostalgic letter.

I know that you prefer to hear
by e-mail but I am very unwell
with the computer.

I agree that Hof's book as it
is won't fly. I fear that his
personal feelings permeate the
text and would be hard to
modify. I'll send him a note. I

remain available if he sees
that I can help.

Theodore Etiot may be a
cousin but his name means
nothing to Sylvia. The document
is very interesting. Your/my
fate in the hereafter will be
smoothed by this

I may have told you that
daughter Isabel will be in Hawaii
for 2 years + where her husband will
direct the anti-aids program. We
will lead a group of old friends
on a tour of the best in Vietnam
in Jan. Love + respect John

Dear Matt,

Too long hanging in
the wind. Please let me

know how things stand with

Etof's book - I have put

too much into the project

not to know what goes

on You

Dear Mat,

We are recently back from
what may be our final trip
for the MCZ - to Indonesia
to see Komodo dragons and
orangutans and proboscis
monkeys.

I don't want to let my
memory play tricks but I

think you still have two sets
and a manuscript from Le
Can Dai. I just want to
keep track of them

SURREY HOTEL

Dear Matt,

Thank you very much for
returns.

We go to Maine in a
day or two - and then I
hope, France - so I will be
a while - but I always look
forward to our meetings

I got the DVD of the
Agent Orange book - will
try to read it early in
the summer
