Hello Jeanne,

Thank you very much for your email at 11:30am today. I emailed Martin Furmanski immediately. Thank you also for mailing the 1959 Detrick document.

My IOM work is moving along well; however, I am sure it will benefit from the above additional data. IOM has had several people working on this project since December and our last meeting is in June.

As you suggested, I will also contact Matthew Meselson (cc-ed here) regarding the Sverdlovsk survivors case report documents, via his online contact information at Harvard:

Email: msm@wjh.harvard.edu

Phone: 617-495-2264

Thanks again,

Dan

I gave him a heads-up that you were working on anthrax incubation and would need help with Japanese material.

All best,

Jeanne
