Janet,

Yes, dinner Friday night next week, September 23rd will be perfect. Please advise on whatever time and location is most convenient for Dr. Meselson and I will be there.

I plan to fly in to Boston early in the day, to avoid any delays due to bad weather, so even an early evening dinner is fine with me.

For discussion, in addition to Dr. Meselson's notebooks from Moscow discussions with both Dr. Nikiferov Sr and Jr on clinical treatment and survivors,

I will bring my questions on the 5 anthrax survivors' as well as their possible connection to Alexis Shelokov's new recollections on Lenin's birthday commemoration in Sverdlovsk April 1979.

In addition, I will bring the rationale for my concern regarding the Florida patient with inhalational anthrax diagnosed last month in Minnesota, as well as the latest discussions with Dr. Lev Grinberg in Yekaterinburg (made possible Aug 19 by Dr. Meselson).

With much appreciation,

Daniel Lucey

Dear Dr. Lucey,

Dr. Meselson's schedule is booked for those times, but he is free for dinner Friday night, if you plan to stay that late.

Would that work for you?

Take care,

Janet

Subject: Sept 22-23 (Thurs-Friday) in Cambridge again

Hello Janet,

I am writing to ask if Dr. Meselson might have 30 minutes to talk next week on either Thursday afternoon (Sept 22) or Friday morning (Sept 23) in his office?

When we last met on Friday, August 19 Dr. Meselson mentioned he would be willing to look back at his notebooks with me regarding the original notes he took with Dr. Alexis Shelokov in June 1992 in Moscow with reference to the five anthrax survivors that Dr. Nikiferov, Jr. provided.

In addition, I would like to discuss the US patient from St. Petersburg, Florida with an unusual strain (Genotype 59) of (inhalational) anthrax who was hospitalized in August in Minnesota.

Thank you again very much for your assistance, and that of Sandy Ropper, when I visited your office August 18-19.

Dear Dr. Lucey,

We're looking forward to seeing you Thursday, August 18. The best time to begin might be 10:00.

Where will you stay while in town? We usually recommend Irving House Bed and Breakfast, which is only a few blocks from our office.
