Q: Best? Control Group.

Not a low level view

but probably target other

regions of missile.

No view on Putnam - what?

to do what?

- Give him a name - ?

- Entirely related to what?

what. Spinnoff. a → blood.

- What does not he want?!

Any specific requirements?

Not who he says

he does.

What is the next missile step?

Dear Matt:

Many thanks for sending me your paper on
Toxins. I am glad to have your thoughts and
am passing them along to the man on my
staff most directly involved with their study.

I'm sorry I've not been able to make connec-
tions with Slater's group yet. I still have
that meeting in mind.

Warm regards,

Henry A. Kissinger
