Dear Bob,

As a matter of fact, I am preparing an article on chemical and biological warfare. I am not certain what I will do with it when it is finished. That depends on how it comes out. I will certainly consider sending it to the Bulletin of the Atomic Scientists.

Thanks for the suggestion.

With best regards,

Matthew Meselson

Dear Matt

Would you like to put an article on CBW in the Bulletin of the Atomic Scientists? Dick Lewis, the new managing editor, would be happy to have one from you. There is no real limit on length other than readability; copy that reached me by mid-February would make the May issue.

With best regards,

Bob Haselton
