Mrs. A.W. Huff
5801 5th Avenue, 3
Pittsburgh, Pennsylvania 15232

Dear Mrs. Huff:

Thank you for your letter of August 20. I enclose two items for your possible interest. Letters to your two senators and to the President urging that we ratify the Geneva Protocol of 1925 and stop using even "non-lethal" gas weapons in battle can help a great deal.

Sincerely yours,

Matthew Meselson

MM:ls
Encl.

August 20, 1969.

Dear Dr. Meselson,

I received your name
as a source of information
regarding gene warfare
from Medical World News

My husband is a
physician. We are both
concerned about the pol-
lution of our earth.

Can you tell us more
about how to responsibly
dissent on the use of
scientific knowledge for
human destruction?

Mrs. A.W. Huff
