

January 21, 1969

Mr. W. Epstein
UN Disarmament Staff
United Nations Building
New York, New York

Dear Bill:

I enclose a list of persons from several of the less developed countries who have been recommended to me as competent microbiologists and epidemiologists. I realize that the United Nations Committee for the Study of Chemical and Biological Weapons has already been closed., Nevertheless, I pass these names along to you in case they might be of some use.

With best regards,

Sincerely yours,

Matthew Meselson
