JUL 7 1969

Professor Mathew Meselson
Biological Laboratories
Harvard University
Cambridge, Massachusetts

Dear Matt:

Do you happen to have a spare copy of the Fulbright hearings publication that was released on the day of our appearance in Washington? I would have written for it directly, but do not have accurate details on its title or number.

Also, do you have any information on a U.N. report on CBW which is scheduled to be released in July 1969? I would like to know how to get a copy when it appears.

With best wishes,

Sincerely,

Arthur W. Galston
Professor of Biology
