Dear Pat:

I have found your letter of 15 June, unopened, upon my desk this morning. I am sorry for this and for the delay it has caused you. I should appreciate it if you would prepare an abstract of my paper for the Venice Meeting.

Incidentally, I have revised my paper for the Venice Conference and hope that the revised version will appear in the proceedings of the Conference. I sent a copy of the revised paper to Rotablat on June 2nd. In case it did not reach you, I enclose another.

With best regards.

Yours sincerely,

Matthew Meselson
