Geneva, Switzerland

Dear Martin:

I would be able to attend a meeting in Stockholm at the time you and Joe have tentatively fixed, October 22-24. If it develops that another date would be preferable, the only very difficult time for me is the start of the semester here - the week of September 27. The best time of all would be in the period September 13-26 but the October date is alright.

With best regards,

Sincerely yours,

Matthew Meselson
