SUBJECT: Review of ASTIB Article

Commander
US Army Foreign Science and
Technology Center
220 Seventh Street, N.E.
Charlottesville, VA 22901

1. References:

a. Letter dated 25 February 1983, subject as above.

b. FONECON between [REDACTED] 3 March 1983, subject as above.

2. [REDACTED] Deputy Director/Executive Technical Advisor, has reviewed the comments FSTC analysts have contributed concerning the ASTIB article. He feels the comments express opinions that do not strengthen the scientific or intelligence credibility of the original article.

3. I suggest that the original article be printed as is.

4. It is my sincere hope that this action has not discouraged analysts to analysts communication.
