Professor George Bunn  
University of Wisconsin  
Law School  
Madison, Wisconsin

Dear George,

I enclose for your interest a copy of an article about harassing gas from the current issue of "New Scientist".

I learned today from Irwin Gubman that not only Syria and Israel, but also several other countries have recently ratified the Protocol. You should receive the particulars from him shortly.

I shall be back in touch with you with a draft paper before too long.

With best regards,

Sincerely yours,

Matthew Meselson
