

November 3, 1969

Mr. James Russell Wiggins
Carlton Cove
Brooklin, Maine 04616

Dear Mr. Wiggins:

Our CBW confernece seems to have stirred up some thinking in the British Foreign Office as you will see from the enclosed. Mr. R.C. Hope-Jones is one of the principal authors of the British BW Ban.

I had hoped that a report of the conference would appear in one of the major national magazines or newspapers but so far we have not succeeded in interesting any of them suffieiently. The Atlantic went so far as to set in type about a quarter of the Proceedings but Bob Manning finally decided that it wouldn't be sufficiently up-to-date by the time it could be published in late December. If you can see any way to get a report of the conference before the public, please let me know.

With warm regards,

b

Sincerely yours,

Matthew Meselson
