

James Russell Wiggins . . . Carlton Cove . . . Brooklin, Maine 04616

November 6, 1969

Dear Dr. Meselson:

Thank you very much for your letter of November 3 and the enclosures.

I am sorry your plans to have the report of the conference published in Atlantic went awry. It would have seemed an interesting and good outlet for the proceedings.

I think the material will not be out of date by December, but will be more interesting than ever.

I have written Ben Bradlee, Executive Editor of The Washington Post, the attached letter and I hope you can send him a report of the proceedings.

Sincerely,

A handwritten signature in cursive script, appearing to read "J. Wiggins".
