November 26, 1969

Dr. Matthew S. Meselson
Harvard University
Cambridge, Massachusetts

Dear Dr. Meselson:

This is just a note of thanks for all the work you have done to persuade the President to ban the use of chemical and bacteriological weaponry. You have done a truly great service for peace and all mankind.

The President's announcement offers a real initiative for peace and recaptures the momentum that has been stalled since the Kennedy years. You have had much to do with this important first step.

Again my thanks and my warm best wishes and regards.

Sincerely yours,

Joseph S. Clark
President
