Dear Jack,

Don't worry about the confusion over your application for a White House Fellowship. I sent a recommendation for you sometime ago and received an acknowledgement for its receipt from the White House Fellowship Commission.

I also took the liberty of recommending you to a friend on the NSC staff, just in case the fellowship doesn't come through. He may wish to request you for a job there. When the White House Fellowship is settled one way or the other, let me know so that I can act accordingly.

Sincerely yours,

Matthew Meselson
