

CBW

THE REPRESENTATIVE
OF THE
UNITED STATES OF AMERICA
TO THE
UNITED NATIONS

February 11, 1970

FEB 13

Dear Professor Meselson:

Thank you for your thoughtful letter of February 3. I am bearing in mind the possibility of a fruitful discussion with you on the subject of CBW and I am most appreciative of your willingness to share your knowledge with me. However, since we are not presently concerned with this problem at the United Nations, it would be much more valuable to me if we could delay our meeting until such time as our attention is focused on the question.

I am delighted to have a copy of your paper on toxins and I look forward with interest to perusing it.

Sincerely,

Charles W. Yost
