19 February 1970

Dear Matt,

Many thanks for your letter of 12 February with the enclosures. I shall be glad to meet your friend Gubman, and I shall get in touch with him within the next week or two.

Robert Neild is coming here for the week of 1 March. He called me to arrange a skiing expedition with him. By then we shall see what develops at the disarmament meeting. He is very doubtful that the UK will change its position on the tear gases and anti-plant agents.

My schedule for the trip to the States is as follows:

- March 14-15 - Philadelphia (Yetta Meranze)
- ~~March 16-21~~ - New York (WHO Office, UN)
- March 22-24 - Washington (Will you attend the Mutagens Society meeting?
I shall go to one or two sessions)
- March 25 - North Carolina
- March 26 - Houston
- March 28-29 - Los Angeles. I'll contact your mother and will probably stay at my in-laws the Wainmans)
- March 30-31 - La Jolla (Frank Dixon's lab at Scripps Clinic and Research Foundation)
- April 1-4 - Berkeley, Stanford, then back to Geneva

During the week of 16-21 March it is barely possible I shall make a few hours trip to Boston.

Love from all here to both of you.

Martin Kaplan
