Dear Dr. Meselson,

The White House Fellowship Commission wrote today, saying I certainly have a fine looking application but that they cannot circulate it or send it to Mr. Flemming. They suggest I contact the NSC, CIA, and Army personnel directly.

Of course it has been my long communication with Army personnel that has produced my decision to resign in '72 and to seek help outside of the Army in securing my upcoming assignment.

Because of your kind offer I have held up all assignment contacts until notice from you that I should continue to march on other options. I don't want friends wasting their efforts or working at cross purposes.

Sincerely,

Jack Walker
