Dear Matt,

Thank you very much for the legal aspects article. I am attaching a separate page for Buergenthal to consider, if there is time for revisions. The article is a very useful document, and my comments are minor.

I am also enclosing some news clippings of interest in the UK controversy on CS. I hear that Hope-Jones is still "temporarily absent." We intend to give our first major speech on CBW policy in about a week. If my draft is still in recognizable shape, I will send you a copy.

I have asked my office for word on the Protocol re-submission, but nothing has come through yet. Looks like I might make it in time for the hearings.

Regards to Sarah. I expect Cathy to arrive around March 25th and hope to take some weekend trips around Switzerland.

As ever,

A handwritten signature in cursive script, appearing to read "Irw".
