Dear Milt,

I would of course be very glad to be listed as a reference on your curriculum vitae.

By now you must have received the questionnaire of the AAAS Herbicide Assessment Commission. Aside from your response to the questionnaire, I would appreciate knowing any suggestions you may have for trustworthy and competent contacts in Vietnam. I am looking for persons whom could gather information on the effects of herbicides, both ecological and medical, and who could prepare the groundwork for a later visit by me or some other member of the AAAS Commission.

With best regards,

Sincerely yours,

Matthew Meselson
