Harvard University
16 Divinity Avenue
Cambridge, Massachusetts 02138

Dear Matt:

I enclose a copy of a second draft of my CBW paper, with a number of additions and improvements suggested by you or by Pete Scoville, and a number of my own. There will be a good many more which I shall think of, not to mention what may come out of the perusal by other people.

I look forward to seeing you on 6 April.

Sincerely,

Archi

Archibald S. Alexander
