New York, NY 10011

Dear Mr. Smith:

I have read the draft chapters by Hugh Crone. They are well written and generally very good. A book of the sort proposed by Crone is definitely needed.

As to be expected, there are occasional errors in the draft text. Although these are minor, I am sure that Dr. Crone would want to have a careful review of the manuscript. The best person to do this is my colleague Julian Perry Robinson at the University of Sussex. His address is:

Science Policy Research Unit  
Mantell Building  
University of Sussex  
Brighton, BN1 9RF  
ENGLAND

Phone: 44-273-678-177  
FAX: 44-273-685-865.

If you want a review and Robinson cannot do it, I would be glad to do it myself. In that case, I would seek your permission to write directly to Crone with whom I have had an enjoyable correspondence in the past.

Sincerely yours,

Matthew Meselson  
Professor of Biochemistry  
and Molecular Biology

P.S. I did not find the Cambridge catalog, so please send one along at your convenience.
