Professor Matthew Meselson
Department of Biochemistry
Harvard University
7 Divinity Ave.
Cambridge, Massachusetts 02138

Yes

Dear Professor Meselson:

Hugh Crone has just submitted his final manuscript "Banning Chemical Weapons: The Scientific Background" to our office, having been accepted with your assistance by the Syndics of the Press. As you have seen draft chapters of the manuscript, would you be willing to read this final draft? The manuscript is quite short, comprising less than 200 typed pages. What we would require is a short report (one or two pages) outlining any problems or suggested revisions, and of course indicating if the work is ready for publication.

As an honorarium for this reading, I can offer \$150 cash or \$300 worth of Cambridge books.

Please respond by FAX at the above number if you would be willing to do this reading. If not, suggestions as to other people who would be qualified to review this work would be welcome.

Thank you for your assistance, and I look forward to your response.

With Best Wishes,

Sincerely,

Andrew Martin
