Dear Steve,

Here is Elisa Harris's draft chapter and her message to me welcoming comment on the YR part and suggesting that you communicate directly with her at the email address below.

Ambassador Dean is Harvard '46 so I called the Class ' 46 Secretary, an elderly Massachusetts gentleman, and was given Ambassador Dean's email address- -to which I have just sent a copy of our Chapter with a respectful request for any comment he may wish to offer . I'll let you know any response.

Our best address is that below . To what address should Jeanne send her book?

Best,

Matthew

dear matt : thanks very much for your kind offer both to look again at my chapter and to put me in contact with some of the folks involved in the investigation who you have had feedback from. my problem is that i leave for egypt in an hour, and am not sure what my internet access will be like for the next few days . could you forward my chapter to them and then ask that they respond to me once they 've had a chance to read it? i have little time to do further revisions, so it would be great if they could get back to me by next ednesday, when i will be in cairo and have internet again . my current draft is attached. thanks again for your help .
best -- elisa
