Dear Professor Meselson,

Thank you for your letter of March 16, 1970, enclosing the paper on the "Legal Aspects of the Geneva Protocol". I have also studied with great interest the "Proceedings of the Conference on Chemical and Biological Warfare". Both provide most valuable material for the further consideration in the United Nations of questions relating to chemical and biological weapons. I am most grateful to you for making these papers available to me.

I hope that I shall have the opportunity to continue our discussion in the near future. When you next plan to come to New York would you get in touch with me?

Yours sincerely,

Max Jakobson
