Dear Matthew,

I am sorry to have taken so
much time in sending the enclosed.
I hope you may find it useful. Please
restrict circulation. I hope to publish it
sometime soon, but in the meanwhile I
don't want the 6-1s at Edgewood to
have it!

I went before the Himsworth
Committee yesterday. A complete
waste of time. I no longer feel it
to be useful to work within their
aegis, and I am convinced that my
findings should be published openly.

Damn the consequences!

Incidentally, I don't now think that Cs alkylates; adds, yes perhaps, but we don't know precisely how the adducts break down, presuming that they do.

Please forgive haste.

Very best wishes

Robert Jones.

P.S. Are you coming to England in the near future?
