Dr. Matthew S. Meselson
58 Washington ave.
Cambridge, Mass.

Dear Dr. Meselson,

Last Thursday I received a phone call from a member of our state League of Women Voters board requesting a brief resume of your talk May 6 to send out to all the state Leagues. Although I usually take notes on everything (even sermons!) I find my notes on your talk are scant and I'm not sure if some of the information I recall is (a) correct and (b) from your talk or some other source. I am therefore sending you the enclosed extremely rough draft of said resume for your correction.

I am pleased to have this opportunity to spread the information further than to the few that were present that evening. Your talk has proved the catalyst for a letter sent in the name of the State League to our Senators urging them to actively work for the passage of the Protocol.

Yours Truly,

Martha C. Wood
Martha C. Wood
