Dear Vic,

I am terribly sorry for omitting your name from the list of American participants in the WHO group. My head hangs very low.

Here is my precious copy of AD809-485. Please have your photographer handle it with the greatest care and dispatch so that I can get it back by June 15. I cannot understand why he is unable to reproduce the color photographs from the negatives I sent. Our own photographer also refused to work from the negatives but I have not been able to find out why. If you can spare an extra set of prints when the job is done, I would appreciate receiving them.

With best regards,

As ever,

Matthew Meselson
