

June 12, 1980

Mr. Dennis Brezina  
Legislative Assistant to  
Senator Nelson  
Senate Office Building Room 404  
Washington, D.C.

Dear Dennis,

I tried to find you during a hectic day in Washington yesterday but didn't succeed. I enclose for your possible interest the May issue of Scientific American magazine in which I have an article on chemical and biological weapons. Please let me know if there is anything I can do to be of assistance.

Sincerely yours,

Matthew Meselson
