

Various phone convs, and a lunch together.

- 1) Amie Hoerber would be glad to see me (was with the President on 10 Feb). I should call her on 695-3762 and fix with her sec'y (Kay Thomas).
- 2) Amie is willing to sign-off on permission for me to talk with Sharon Watson, who is currently out of town. Sterling will call Sharon.
- 3) There is a package of YR sample (but possibly a UXB) waiting to be shipped back from Thailand to USA. Cable traffic about how to handle. (Celec confirmed this at lunch)
- 4) Kit Green had declined to meet with me. But now that my lunch with Celec seemed to have gone off so well, it might be that he is now willing to do so.
- 5) A strong Swedish investigating team is now in Thailand.
- 6) Kit Green: (703) 351-5832 (direct line to his office).
- 7) Sharon Watson: (301) 663-7603
- 8) Will I return to him my detailed critique of his book so that he can correct the European editions? He will be at Ocean City till June.
